

*Live an exciting sailing  
and adventure trip!*

Visit  
the most emblematic  
natural reserves  
of Macaronesia!

If you are passionate about nature, or your dream is to navigate between whales and dolphins, or visit the remote nesting sites of the most seldom-seen pelagic birds,

*This is your trip!*

You will visit the **Desertas Islands** in **Madeira**, sanctuary of cetaceans and birds, accompanied by local guides and biologists.

You will then sail with the comfortable boats of our fleet to the **Savage Islands**, where we will anchor and make a guided tour of the "Isla Grande".

Once the night is over and after recovering strength, we will start the trip to **Alegranza Island**, where we will be able to observe Eleonora's hawks and the marine fauna that live in the marine reserve of **La Graciosa** "the largest marine reserve in Europe".

After this exclusive adventure of 240 miles, we will finish at the port of Marina Arrecife on the island of **Lanzarote**.
